Subject: Call from Justin Franz of the Flathead Beacon

Hi All,

I just got off the phone with Justin Franz, a reporter for the Flathead Beacon who had some questions in regards to CFAC.

He wanted to know the status and I let him know we did that last Thursday at the public meeting. He got the joke.

He asked the status of the Cleanup and I let him know we were in negotiations for the AOC to get us through RI and FS. He asked how the negotiations were going and I let him know we were close and he wanted to know how close and I let him know what we have been telling folks we were hoping by the end of November.

He wanted to know more about the process and when cleanup would begin. I walked him through the process and all the effort it takes to identify the site and select a remedy and then move on to the proposed plan and implement it.

He asked, since we were signing an AOC that we would not go after a Superfund designation. I let him know we would still seek the listing, however CFAC has requested a SAA. I let him know we have brought that request to our management and they have not made a decision on this request. I also let him know the next time for listing would be next spring but we may see how the first construction season goes before we make any decisions on this.

He asked if he had any further questions if he could contact me.

Thanks
Mike
